

# Access Lakeland Epic for MR Breast History

## Introduction

Technologists will be documenting specific breast history patient information within their Epic workflow (including hormone therapy, family history, and documentation of current symptoms/abnormalities). This information will appear on a separate tab in Study Review called *Breast History*.

## Procedure

1. Select the tab, Breast History in Study Review

2. Example breast history report:

**MR breast bilateral w and wo contrast** Order #: Accession #:
