The STARS people are really outstanding. They are so kind and helpful. I think the Schedulers really bend over backward to help also. I think we have a lot to be really proud of and very talented people here.

"The best surprise has been the support on nights. When you were on nights in our old group you were on an island. Here there's a whole team of people to consult with and IT help at the click of a button. We were making those calls and trying to stay caught up with stuff at the same time at my previous practice. It's been great just to be able to read!"

"Both clinical and non-clinical staff have been great with communication. The Help Desk is wonderful. They always get back to me promptly, and if someone is out someone else will follow up; I always know who to reach out to when I need something. The corporate communication is excellent. I'm very impressed. Everything is very efficient. I've never worked somewhere with all of this staff in place to help address all of my needs; it's wonderful. "
